In a plea of the case for that the said defendants at China, to wit: Houlton on the twenty-sixth day of July, A D eighteen hundred and forty two, jointly and severally promised one Allen Drinkett to pay him or his order one hundred dollars in one year from date, with interest at eight per centum, and the said Allen thereafterwards, to wit, on the same day, by his endorsement in writing, for value received ordered the contents of said note to be paid to the plaintiff, according to the effect and tenor thereof; and the defendants became liable, and in consideration thereof promised the plaintiff to pay him the same, according to the tenor of said note. Orphans' Fair.

The persevering and right hearted Managers of the Female Orphan Asylum have received the splendid book which they have published and which we noticed in another article, and will give a closing Fair on Thursday evening in Market Hall for the sale of the book and for disposing of the balance of their fancy stock and desirable articles. Ample refreshments will be provided and every thing made highly agreeable to visitors. There is no higher object of benevolence than that of providing for female Orphan children, and surely no more tempting or pleasant way can be found for the bestowment of a small sum where it will do good than that of the fair, and the purchase of a very agreeable book and some useful or ornamental article. It is to be hoped and expected, then, that our people, young and old, will take out in large numbers, and enjoy themselves at the Fair on Thursday evening by a social interview and by purchasing liberally of what will be offered for sale and while they help others also help themselves.

☞ There is no little canvassing among the locos in this city as to the appointment of a U. S. Senator in place of Mr Fairfield deceased. It is said by some of them, whether in joke or not we are unable to determine, that Hon Hannibal Hamlin has forsaken the ground of the Wilmot proviso and that he of course cannot now expect the appointment. It is stated that Gov Dana's brother-in law Mr Howard of the U S. District Attorney would like it and the R P Dunlap, who nominated Gov Dana a fathers to a similar vacancy would not be displeased with it, and that rather than the East should suffer Colonel John and even the Shepherd of the Yeomanry would consent to serve!

☞ The Hallowell Cultivator speaks in high terms of the first lecture before the Lyceum just formed in that town, by Rev Mr. Thurston. The subject of the lecture was, *Freedom of Speech and Inquiry*, and the subject is spoken of as highly appropriate for the opening lecture of a lyceum.

The right and duty of speech and inquiry upon all important subjects, while the "obvious, useless, and mysterious" are to be avoided, was fully established. The fearful responsibility incurred by the exercise of this right, was dwelt upon in glowing language. Truth is the mighty agent by which the world is to be civilized and christianized, and free investigation and inquiry, will be brought to bear upon all minds.

The Shepherd of Monmouth in Congress.

The following resolutions, the first policy by Mr Stephens, a good Whig, from Georgia, and the second sent by the indomitable Whig John M. Botts, of Virginia, as introduced by them into Congress, are strongly hopeful signs of the sensible and policy which the Whigs intend to shape for the country, so far at least, as the House is concerned.

MR STEPHENS'S RESOLUTIONS

Whereas it is now desired by the interests and friends of our country should be conducted as soon as and extended so long as the present war with Mexico continues to exist than that the conflict should no longer be unnecessarily prolonged, but that it be terminated as soon as an honorable peace can be obtained, and whereas it is believed that a diversity of opinion prevails to a considerable extent as to the ultimate aims and objects for which the war should be prosecuted, and it being proper that this matter should be settled by the clear expression of the legislative will solemnly proclaimed to the world:

Be it therefore resolved by the Senate and House of Representatives of the United States in Congress assembled, That the present war with Mexico should not be waged or prosecuted "with a view to conquest," either by the subjugation or dismemberment of that Republic.

Be it further resolved by the authority aforesaid, That it is the desire of the United States that hostilities should be terminated upon terms honorable to both parties, embracing a mutual settlement of the questions growing out of the "proper and rightful" boundary of Texas, and full recognition and proper provision on her part, to be made for all the just claims of our citizens against that country—the whole to be adjusted by negotiation, to be instituted and effected according to the constitutional forms of each Government respectively.

MR BOTTS'S RESOLUTIONS

1 Resolved, That among the highest duties that can devolve upon the Representatives of the People, is the preservation of the national integrity, a strict observance of the limitations of the Constitution, and affirmed resistance to Executive encroachment.

2 Resolved, That any war which has for its object the acquisition of territory by conquest, brings into question the national character, is in violation of the Constitution of the United States, in conflict with the genius and spirit of our institutions and dangerous to the perpetuity of the Union.

3 Resolved, That the war in which we are now engaged, was not brought on by the act of Mexico.

4 Resolved, That the war with Mexico was brought on by the unauthorized act of the President of the United States, in ordering the army under the command of General Taylor into territory then in possession of the Mexican Republic.

5 Resolved, That we have no right to claim indemnity for the expenses of a war brought on by the aforesaid and unprovoked act of our own public functionaries.

6 Resolved, That the honor of this nation does not consist in exacting territory from Mexico, to which we have no claim, and yielding to Great Britain territory the title to which was asserted to be "clear and indisputable," and that to evade the strong and pursue the weak, does not present the honor, courage, or greatness of our people in their true light.

7 Resolved That to exact indemnity from Mexico would develve upon us the necessity of making a similar demand in all future wars, which would involve us in an interminable conflict, or of surrendering a principle now asserted on an indispensable to the preservation of our national honor.

8 Resolved, That no new territory can be annexed to the United States by virtue of the war, without involving the agitation of dangerous difficulties, begetting sectional animosities, and weakening the ties that connect us together.

9 Resolved, That if the conquest of territory be not the object of the war, we can perceive no good reason for continuing our troops in the heart of the enemy's country, by which their lives are unnecessarily exposed and our resources needlessly expended.

10 Resolved, That a conquering nation has nothing to apprehend from an exhibition of magnanimity and generosity to a defeated foe; and that a victorious army may return from the pestilent of carnage and slaughter, without incurring the imputation of retreating from the scattered and discomfitted forces of the enemy.

11 Resolved, That the most efficient, if not the only means of restoring a speedy and honorable peace would be, under proper pretences or stratagems, to withdraw our troops already covered with glory, and entrenched with success, to the true and legitimate boundary of Texas at the time of its annexation to the United States.

12 Resolved, That our institutions, founded on the rights of man, repudiate the doctrine that might makes right, as we freebooter a plea and the pirate's law, and so long as we offer an asylum to the oppressed, and recognize "life, liberty, and the pursuit of happiness" among the inalienable rights of man, we cannot rest upon the dismemberment of an empire, as the price of peace.

13. Resolved, That if upon the restoration of peace, the necessities of our commerce shall require a harbor in any part of the Mexican territory in California, we are able, and should be willing, to pay therefor, as would become a great and an honest people.

14 Resolved, That if it shall be determined by the People, through their Representatives, that this war shall be further prosecuted in Mexico, it then becomes the duty of all parties to protect our national flag and brave army, by furnishing all needful supplies of men and money to carry it on with vigor and effect.

MR. THOMPSON'S RESOLUTIONS

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, in the opinion of Congress, the President of the United States should forthwith cause to be communicated to the Government of Mexico that peace may be immediately established between the two countries upon the following terms to wit

First, That the boundary line between the United States and Mexico shall be as follows to wit—beginning at the Gulf of Mexico, near the mouth of the Rio Nueces, and running thence northwest, with the course of said Rio Nueces, so as to include all the Texan settlements south and west of said river, with power to the inhabitants of Texas to, the United States, thence, up the said Rio Nueces, until it reached the line which separated the province of Texas before her independence from the provinces of New Mexico, Coahuila, and Tamaulipas, and thence along said line, to the Rio Rojo or Red river.

Second, That the Government of the United States, disclaiming the intention of acquiring or holding the same by conquest, will purchase from Mexico, with the consent of the Government of Mexico, the territory embraced in the following boundary, to wit: beginning at a point on the Gulf of Mexico, as near as may be to the centre of the great desert or prairie which lies between the valleys of the Rio Grande and the Nueces, thence following the centre of the desert or prairie, or parallel, northward, to the range of mountains which divide the waters of the Nueces from those that run eastward to the Gulf of Mexico, and providing said range of mountains until it intersects the line of north latitude 36° 30', thence by that parallel of latitude, west, to the Pacific ocean, so as to include within the United States the bay and city of Monterey, in Upper California.

Third, That, in consideration of the cession of this territory, authorized by the foregoing boundary, the Government of the United States will pay to the Government of Mexico the sum of [illegible] in the manner following, to wit: [illegible]

Fourth, That the Government of the United States shall pay from the Congressional Treasury so much money as may be necessary to carry into effect the stipulations of the treaty.

Fifth, Still, as soon as a treaty of peace shall have been made and ratified by and between the two Governments, the army of the United States shall withdraw from every portion of the territory of Mexico now or at that time in its possession.

Sixth That the Government of the U States will guarantee to the Government of Mexico that all persons, now citizens of Mexico, who possess property within the territory thus proposed to be ceded to the United States, shall cost nee to hold and enjoy the same, under the laws and institutions of the United States.

☞ Capt Andrew T. Palmer of Belfast gave, last evening, at the City Hall, an interesting account of the march of the ninth regiment from Vera Cruz to the city of Mexico with a particular account of three battles in which they were engaged, and also a history of political places in Mexico.

The City Hall was well filled while the price of admission was 12 1-2 cents. Capt Palmer very properly refrained from the expression of any party views and from all matters touching the causes of the war. He gave as his opinion that peace would be secured in a few months and that all fighting is over. He resigned, having discharged his duty to his country and his party, because his pay would not support him and his family—He spoke in the highest terms of Lieut. Alphéus T. Palmer of this city.

Teachers' Institute.

The Institute argues well for our State and if we are willing to learn our defects, as well as excelling in our excellences, it may be wonders in our favor. I could notice with much pleasure, what seemed to me very agreeable and instructive in the one lately held in Bangor, but as its proceedings have been published, it becomes my unwelcome, but no less important duty to notice its defects.

And first when we consider that, for time and place, it should have been truly Christian, it was no more than nations without the light of Revelation would have set forth. Our teachers while they delighted us with their candor, zeal, and good sense, were offensive in their questions and pronunciation, their numerous hahs, ahs, ns, and hems, were such as biased Demosthenes twice from the Grecian stage, and while the instructed of the heathen world would have made the worship of the Gods, together with human kindness and moral virtues the first, second, and third parts out of four, in Education, here religious subjects were omitted until the last, and then introduced with great difficulty, and less under restrictions which no other part was.

Our lectures, also, while they commended their speakers in many important things, were certainly, in some things, exceptionable, and worthy of rebuke. To notice Horace Mann's lecture, whom I would readily style Hon, if I knew how to give Hon titles in a country where the civil Constitution forbids them—While we were delighted at his stretch of thought, sublimed wit, and patriotism, we were troubled at his presumption. *He had found the way the Eternal went forth in creation.* Shame the Almighty question him as he did Job, and ask, *Where wast thou when I laid the foundations of the earth*, instead of the modesty which that heathen showed, he would have said, 'O, I was there, and had, or helped lay, the corner stone, and joined in the chorus *when all the sons of God shouted for joy.* He had ascertained, too, that gouts, accidents, and consumptions were hereditary, and freed the subjects of them from obligations of respect to parents. That these may, in some instances, be hereditary, is admissible, but by no means that they are so generally. Besides, what is hereditary can never be a calamity. The child shall not die for the sin of his father.

Whatever evil is involved, is more than made up to the subject by a kind providence. If one brother were in more pain by such an affliction, we feel that the subject was not well selected.

Mr Woolson, for another. We have been delighted to see his skill and regard for youth, both in the Institute, and in his own school and were delighted with his lecture for, although he taught us to have faith in our own powers, (instead of referring all to Christ, by which our skill would become superhuman,) yet there was better than to prevent faith in Christ, we deny any moral power in man, as when we take men's eyes from them we render the sun useless. Yet this made us draw a melancholy contrast between his, and a truly christian address, which the time and place so loudly called for. Christianity, which ought to be the foundation of all schools, and must be, or we shall sink as low as we have been exalted high, is as much beyond mere philosophy, in all the moral, literary, and business concerns of life, as the sun exceeds our moon and stars.

It may be said every thing in its place, the Institute was designed for literary purposes, not religious. If so, here lies the mistake. We admit that every thing should be in its place, but the places for religion and literature are together and the former is to take the lead,—separate them, and you destroy both. One must be treated the other vapory and dangerous. We might as well say, we will live one fortnight, without food, and then on food without drink, and so have every thing in its place.

If these hints induce any good friend, who knows that plain dealing is the most lovely, to speak to the writer of his faults, good will be obtained.

With due respect,

S BAKER

Serious Affray between Tutors and Students at Yale College.

A serious affray occurred on Thursday night, 23d, between two tutors at Yale College, named Emerson and Goodrich, and a couple of students named Towar and Ewen, which it is feared will prove fatal to one of the parties.

During the affray one of the tutors was stabbed with a sword cane, and the other was knocked down with a bar of iron. It is feared the latter will not survive his injury. Goodrich is a son of Prof. Goodrich of Yale College. Towar is from Philadelphia and Ewen is from Tennessee. The students have been held to bail in the sum of $4,000 each. Why Some Men do not Succeed.

There are men enough who, not withstanding all the noble qualities with which they are endowed, can yet make no right use of them, because they exist only as shining parts destitute of any common band of connexion. As in an arch that would stand all parts must be bound together by the keystone, so these must be a middle point in man towards which all tends. When this is wanting, there is neither in property nor adversity, any stable dependence. Almost one and vanishes like dust away.

And thus it not unfrequently happens, that men who, in the ordinary course of things, seem of light to be something with all their shining gifts, on the smallest trial, show that they are nothing deserve the hope of the world, and to their own astonishment, sink into magnificence.

Bake it in an hour.

LATEST NEWS FROM HARRISBURG

Dr. Jayne,—Dear Sir: Mr John J. Miller, residing on the Quicksand side of the river, directly opposite this place, called on me a few days since, and stated that his wife was cured of a very severe cough, which she had been troubled with for a long time, by the use of your EXPECTORANT. Before she commenced using it, she had become so weakened and reduced as to be obliged to keep to her bed, with every appearance of having dispositional Consumption, and he had very little hopes of her recovery, especially as, the night before she commenced using the Expectorant, he thought was no light and expects that he did not think she could live till morning, and three bottles, which he procured from me, restored her to health. He promised me to communicate these facts to you. Respectfully yours,

ASTHMA.—This dreadful complaint is generally preceded by pain in the head, stiffness, especially in the morning, nausea, loss of appetite, loss of memory, and other unpleasant symptoms, which indicate a loaded and coated state of the stomach.

Wright's Indian Vegetable Pills are a direct purifier of the blood, and are therefore a certain preventative from asthmatic complaints, because they expel from the body those many impurities and corrupt humors, which are the cause of every malady incident to man.

Wright's Indian Vegetable Pills also aid and improve digestion, as well as purify the blood, and therefore not only drive disease of every name from the body, but are one of the best. Food for the very best medicine in the world for the cure of colds, dysentery, cholera morbus, and other diseases of the intestines.

Beware of Counterfeits of all kinds. Some are coated with sugar, others are made to resemble in outward appearance the original medicine. The Age of Improvement.

One of the most important discoveries of the age, in ameliorating the condition of this large class of suffering humanity, consumptives, is Dr Wistar's Balsam of Wild Cherry. What time relatives and connexions, what experience adopts and confirms what all men in all places unite in saying is good and valuable, is, no doubt. A popularity of that sort fixes in society its root so deep and strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all respectable and sensible men, and the article has taken a stand among the first class of discoveries and blessings of the age, and when received in season eradicates the disease for which it is recommended.

We cut the following from the Bellows Falls Gazette, of January, 1846:

WISTAR'S BALSAM.—Notwithstanding our aversion to puffing, as many do, every thing that comes along in the shape of Patent Medicines, and the fact that we scarcely ever take medicines of any kind, yet we feel that we should be doing injustice to the community by withholding longer the favorable opinion we have of Wistar's Balsam, in cases of colds and pulmonary complaints.—Having witnessed its good effects in several instances, we believe it to be an excellent article.

None genuine unless signed I. BUTTS on the wrapper.

Timber Land for sale.
ABOUT 3500 acres of Timber Land, situated in Township No 3, 3d Range, west from the east line of the State, the same being an undivided third of the north 2 part of said township. The east and west branches of the Shattawamkeag River passes directly through the tract making the distance to haul timber comparatively small.
The facilities for getting the lumber to market are unsurpassed and the expense of driving small, there being those who are always ready to contract to drive logs from this township for from 2½ to 3½ cents per thousand feet.
The above property belongs to the estate of a gentleman recently deceased and payment will be required in cash or that which will command the same upon the execution of the deed.
Should a purchase be desired by the purchaser, commissioners for that purpose could probably be appointed by consent of parties.
The land will be sold with or without the interest in the present winter operations.

WERE RETAILED in Boston by Gardner Chilson in the shortspace of six months, and a large number have been sold by myself in this city. This Stove is not equalled by any other stove in the United States, and the unparalleled sale it has met with fully bespeaks its unquestionable merits.

HOUSE KEEPERS should be sure and examine this superior Stove, which has won the admiration of several thousand house keepers the past season. It has more real and useful improvements than all others combined. The fire brick Oven top has proved to be of great value in preventing the steam and cause the bread to rise and bake light, (equal to the house brick oven.) The brick is found to be more durable than the iron top. It is so equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, toasting, &c., upon plate. The grate clears itself discharging the ashes into the ash pit. The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking. Its neat plating appearance substantial construction, and general good qualities, have set it forth to be

Important to Parents.

WINER'S

CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS

THIS remedy is safe in its operation and more easily administered than any other.

THE GREATEST CAUSE OF DEATH among children is to be attributed to Worms. They give rise to numerous diseases, and are the more fatal because least suspected, were parents to look on this subject more attentively, and carefully observe the symptoms which indicate the existence of worms in the bowels. *No fears of young children would be doubted be cured.* Some of the symptoms are as follows: the countenance is of a pale or leaden color, and is suffused with occasional flushes; the eyes are heavy and dull, bad breath, itching in the nostrils, the sleep disturbed, the patient of a restless nature, given to fright, and is liable to starting and grinding the teeth, the appetite is irregular, being sometimes voracious and at other times feeble, occasional vomiting, &c.

Winer's Canadian Vermifuge has received a reputation unprecedented by that of any other medicine of the kind, and is daily increasing in popularity wherever it is known and used, it is *universally approved*, it passes a preference which no other article of the kind does, it is more *prompt and efficient* in its action and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and to use the language of one in high standing, who resides in Cleveland, Ohio, consider it the only article of the kind he ever saw that was so uniform and prompt in expelling worms, at any time to be relied on with the utmost confidence, as it has never been found to fail, this is the reason why all who have used it will put no any other.

We have in our possession a number of certificates from physicians and others, of the highest respectability, who all testify to its superior efficacy, and recommend it as a power failing remedy.

READ AND BE CONVINCED

We the undersigned have tried the administered a medicine prepared by Mr John Winer of this town, designated "Winer's Canadian Vermifuge" and being fully satisfied with its efficacy confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal.

New York Mar 30th 1847.

Messrs J Winer & Co Sirs—My child of five years of age, was for more than two years severely afflicted with Worms during which time we gave her different medicines recommended in such cases but they produced no beneficial effects. At length procured a bottle of your Canadian Vermifuge, and gave it to her, which caused her to pass a large number of worms, since then she has been in the enjoyment of perfect health. From my own experience, I would recommend your Vermifuge as being the most safe and effectual remedy for worms now in use. Yours truly,

C G SMITHEN, 30 Ravington st.

Be particular and remember the name "Winer's Canadian Vermifuge," this is the only article that can be depended on. Remember this

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Guaranteed.

For the cure of Piles, Inflammation of the Liver and Bowel Inflammation, Soreness and Obstruction of the Stomach, Bowels, Kidney and Bladder Inflammatory and Mercurial Rheumatism, Jaundice of Blood, Dropsical and Inflammation of the Spine and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY,

Invented by Dr. A. Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this, it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external and probably the only thing that will. There is no mistake about it. It is a positive cure—*tried and perfected*. It is also a convenient medicine to take, and improves the general health to a remarkable degree.

Each box contains twelve doses, at $1 3 dollars less. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger.—All external applications are in the highest degree disagreeable, inconvenient and offensive, and from their very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character, with a determination of blood to any particular part or organ. In inflammation and congestion of the Liver and Spleen, Inflammation, Soreness and Rheumatism of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, it is the best and surest ever discovered.

IMPURITIES OF THE BLOOD.

For all impurities of the Blood, arising from the impudent use of Mercury, or other causes, for all diseases of the Skin, and Scrofulous Affections, in all cases where the blood is powerfully determined to the head, producing dizziness and distress DR UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES.

Married ladies are almost invariably subject to that painful and tyrannic disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will prevent, on every time, a safe delivery, and a speedy recovery to the offspring.

CURE FOR LIFE GUARANTEED.

The Electuary contains NO MINERAL Medicine, no Aloes, Colocynth, Gamboge, or other powerful and irritating purgatives. No fear of taking cold when under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTEED.

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, gratis.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me., March 14, 1847.

Dr. Upham—My dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Bleeding Piles for 10 years past, so much so that I the same reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs. My eyes are become affected, and in fact I could see no way to recover. I was obliged to give up my business. I had tried all kinds of medicine, had the best advice the Doctors in Boston and then place could afford, spent much money and twice submitted to painful operations. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found to relieve the slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well, still I kept on, and now I am a well man. My dear Sir, language cannot express the heartfelt thanks that I am once more restored to health, and now in a condition to support my large family, dependent on me.

You can use this letter as you please.

Yours respectfully, BARNES CHARLTON.

From CONSTANT GUILLOU, Esq Attorney at Law, and Notary Public Philadelphia

"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On trial of them in my own family, and some of them personally, I have more than realized those favorable anticipations,—they are, what they profess to be, scientifically prepared and compounded. I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair-Restorative, Shaving Cream, Nymph Soap*, and, in fact, all the popular preparations of Mr Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.

From Barnet J. Dennison, Esq., Attorney at Law, General Consul of Portuguese States, Vice Consul of Austria, Sardinia, Portugal and Tuscany.

"To Mr. Jules Hauel.

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, all fully prepared and compounded. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste.—I am fully cognizant of their intrinsic worth, and do heartily recommend them to all for the use and purpose they are intended. Nothing can equal the beauty and issues bestowed by the lady of the Eau Lustral Hair Restorative. Effervescence checked and promotes its growth. TO THE PUBLIC.

IT is well known that there is secreted in the stomach, a fluid which is called Gastric Juice, that the food when taken into the stomach is acted upon by this Gastric Juice, which causes it to pass into a pulpy substance called Chyme, this passes into the upper portion of the intestinal tube, there becomes mixed with bile and pancreatic Juice, and is by medical men termed Chyle, a portion of which is in a fit state to be, and is taken up by small vessels called Lacteals, carried into the system, and converted into Blood. The food also being so changed, becomes assimilated, gives nourishment, and supplies the waste of the body, thus the process and effect of Digestion.

How important therefore, that the digestive organs perform their functions properly. There are also, innumerable sympathies existing between the Dyspeptic Stomach and distant parts of the body, some few of the effects of which are here given—Sick Headache, Nausea and Vomiting, Low Spirits, Despair, Mental Derangement, Irregularity of Pulse, Palpitation of the Heart, Difficulty of breathing, often leading the patient or his friends to suspect incurable Organic Disease, all of which might have been prevented by timely attention to Dyspeptic symptoms, and proper treatment. It should also be known, that these troubles not unfrequently exist as the effect of disturbances of the Digestive Organs, when the ordinary Dyspeptic symptoms are not discoverable, and should be treated accordingly. The deplorable effect of a disorganized stomach, is indeed melancholy to contemplate.

A consideration of these facts and observations for more than a quarter of a century in Chronic Diseases, their rise, progress and end, have led the Proprietor to an unbiased inquiry, whether there is in the whole catalogue of medicine a combination which is better fitted than all others to remove the far more common causes of these dreadful maladies. The result of this research, and much experience, is now offered with great confidence to the public in
